my best
teacher
is you.

Simple, beautiful words.

Raising happy, confident, resourceful kids is a big job. Today's generation of parents is the first to deal with things our parents never dreamt of, including how to manage screen time.

On-screen or offline, it's about making time for quality interactions.

That's where 2000 words comes in. The number of positive words a child hears in an hour can dramatically impact their future success.

More words + **less screen time** = **stronger connections in the future**

Making words a priority is a simple way to make a huge impact on your child's future.

Let us help you get started.
